THE MCDONOUGH

1958 SQ FT

This compact plan fits 2230 SF of living space and a two-car garage into a 44' by 36' envelope. The classical Greek revival elevation is designed to express elegance in spite of its narrow width. Inside, the plan opens from the entry hall into a combined living/dining in front to a unified breakfast/family in the rear. Documentation includes a basement foundation and 2 x 6 walls.
